Ushbu monografiyada yer uchastkalaridan cheklangan tarzda foydalanishning nazariy va amaliy jihatlari xalqaro tajribalar asosida chuqur o'rganilgan. Bundan tashqari, yer resurslaridan cheklangan tarzda foydalanish huquqini tartibga solish masalalarining mazmuni ochib berilgan. Olib borilgan tadqiqotlar yer munosabatlariga oid qonunchilikni takomillashtirish bo'yicha aniq taklif va tavsiyalar ishlab chiqishga xizmat qiladi. Monografiya Olly o'quv yurtlarining "Yer resurslaridan foydalanish va boshqarish", "Yer kadastro va yerdan foydalanish", "Kadastr", "Huquqshunoslik" kabi bakalavriat ta'lim yo'nalishlari va magistratura mutaxassisligi talabalari, tadqiqotchilar va ilmiy xodimlar uchun mo'ljallangan. Shuningdek, monografiyadan nafaqat yer tuzuvchilar, huquqshunoslari, kadastr muhandislari va qishloq xo'jaligi xodimlari ham keng foydalanishlari mumkin

In this monograph, the theoretical and practical aspects of the limited use of land plots are deeply studied on the basis of international experiences. In addition, the content of the issues of regulation of the right to limited use of land resources is revealed. The conducted research serves to develop specific proposals and recommendations for improving the legislation on land relations. The monograph is intended for undergraduate and graduate students, researchers and scientific staff of higher educational institutions, such as "management of the use of land resources", "Land management and land cadastre", "Cadastre", "Jurisprudence". Also, the monograph can be widely used not only by land surveyors, lawyers, cadastral engineers and agricultural workers.

В данной монографии теоретические и практические аспекты ограниченного использования земельных участков глубоко изучены на основе зарубежного опыта. Кроме того, раскрывается содержание вопросов регулирования права ограниченного пользования земельными ресурсами. Проведенное исследование служит для разработки конкретных предложений и рекомендаций по совершенствованию законодательства о земельных отношениях. Монография предназначена для студентов и аспирантов, научных работников и научных сотрудников высших учебных заведений, таких как «Использование и управление земельными ресурсами», «Земельный кадастр и землепользование», «Кадастр», «Правоведение». Также монография может быть широко использована не только землемерами, юристами, cadastrальными инженерами и работниками сельского хозяйства.
